# FOREWORD

It is with great pleasure that I present to you the 2020 Trade Directory of Zimbabwe.

Access to information remains crucial in establishing a strong presence of Zimbabwean products in export markets. To improve the visibility of Zimbabwean businesses in foreign markets, this Trade Directory has continuously proven to be a valuable resource to share key information about Zimbabwean businesses to buyers, investors, exporters and other stakeholders. We are confident that this edition will remain an important resource.

As ZimTrade, we remain steadfast in growing exports by creating strong linkages between local manufacturers and global trading partners. This is in line with the Government of Zimbabwe's thrust to increase export earnings and expectations of the private sector in creating opportunities and strengthening their competitiveness.

The Trade Directory is one way in which we can improve competitiveness by providing up-to-date contact information on Zimbabwean manufacturers, exporters and other trade-related support organisations. To further improve visibility of Zimbabwean businesses, the Trade Directory will be available online on the Zimbabwe Trade Information Portal ([www.tradezimbabwe.com](http://www.tradezimbabwe.com)). This additionally allows for global visibility for our Zimbabwean products and services.

Let me also take this opportunity to encourage exporters and importers to frequently utilise the Trade Information Portal to access up-to date trade information at the click of a button.

Our commitment to disseminating up-to-date and relevant trade information, developing and promoting potential and existing exporters as well as advocating for the ease of doing export business is fuelled by the passion to ensure that Zimbabwean companies make an efficacious contribution towards the growth of our exports.

I anticipate that this publication will be useful to your business.

A stylized, handwritten signature in black ink, appearing to read 'Allan Majuru'.

**ALLAN MAJURU**

Chief Executive Officer, ZimTrade

March, 2020

# HOW TO USE THE DIRECTORY

THE DIRECTORY IS DIVIDED INTO SIX COLOUR CODED SECTIONS.

## 1. USEFUL INFORMATION

This section gives relevant facts and figures on Zimbabwe, followed by a general overview of the Zimbabwean economy and key economic sectors. Contact details of various trade-related institutions and organisations are also provided.

## 2. USEFUL ADDRESSES

This section provides contact information for various business organisations i.e. Hotels, Banking Institutions, Trade Facilitation Organisations, Selected Government Ministries and Departments, Foreign Representation in Zimbabwe, Zimbabwe Diplomatic Missions Abroad.

## 3. EXPORT PRODUCT LISTING

Contains an alphabetical list of export product

groups. Below each product group are the names of the exporting companies.

## 4. IMPORT PRODUCT LISTING

Contains an alphabetical list of import product groups. Below each group are the names of importing companies.

## 5. SERVICES LISTING

This section alphabetically lists services provided (*export and import*). Below each service group are the names of the service providers.

## 6. COMPANY PROFILES

Lists companies alphabetically. More detailed information is provided (*telephone numbers, fax numbers, e-mail and website addresses as well as product/service descriptions*).

## TELEPHONE AREA CODES

Zimbabwe has recently changed telephone codes. The following are some of the changes and how they are dialed:

CITY/TOWN	PREVIOUS AREA CODE	NEW AREA CODE	PREFIXING NUMBER	NEW NUMBER EXAMPLE
Harare	04	024	2	(024) 2xxxxx (Existing Number)
Bulawayo	09	029	2	(029) 2xxxxx (Existing Number)

# ABOUT ZIMTRADE

ZimTrade is a unique joint venture partnership between the Private Sector and the Government of Zimbabwe.

It was formed through a constitution in September 1991 and started operations in January 1992. ZimTrade is also governed through the constitution which is member-driven. The membership of ZimTrade comprises all exporters and importers of qualifying goods and services as well as anyone who pays membership subscriptions.

## VISION

Towards a sustainable export-oriented economy.

## MISSION

To develop and promote export related trade of goods and services for sustainable economic growth.

## VALUES

**Focused** – We always keep our objectives and targets in sight as they are the key drivers to our performance.

**Connected** – We have strong and diverse networks with our clients and stakeholders. This helps us understand their needs and for them to understand our reason for existence.

**Bold** – We are confident. We are not afraid to take on challenges.

**Trusted** – We have earned the confidence of our stakeholders through honesty, authenticity and integrity.

### ZimTrade Governance Structure

ZimTrade is governed by a Board comprising 9 members, of whom 4 are elected by the members in a general meeting and 5, including the chairman, are appointed by the Minister of Industry and Commerce, in the government of Zimbabwe. All Board members are appointed in their own rights, and not in a representative capacity. All the members attend an Annual General Meeting at which the organisation's performance is reviewed.

### How ZimTrade is Funded

ZimTrade is mainly funded through a Trade Development Surcharge of 0.1% of the free on-board value of qualifying private sector imports and exports (excluding minerals, fuels and power). At the formation of ZimTrade, government originally committed to provide a budgetary subvention (grant) matching dollar for dollar the private sector contribution from the surcharge.

The trade development surcharge was introduced after realisation that trade promotion organisations which are effective have operational autonomy and are well resourced financially, usually through levies on imports and exports, or both.

## SERVICES

### Market Information

ZimTrade provide market intelligence through various channels such as the trade information portal, inhouse publications that include our trade directory and monthly newsletter and Zimbabwe-EU business Information Centre. ZimTrade participates in national consultations on regional integration, WTO matters and on bilateral trade agreements aiming to create new opportunities for our exporters and to reduce the hurdles to exporting.

### Export Promotion

ZimTrade is committed to promoting Zimbabwe as a reliable and competitive Sourcing and Business Destination for manufactured goods, horticultural products and value-added services. Our promotion activities are carefully designed and implemented to stimulate exports to existing and new markets. We provide assistance to our established exporters as well as to would-be exporters to understand and penetrate developed and emerging markets.

### Export Development

ZimTrade undertakes a range of 'Export Development' Initiatives which are directed at building and strengthening the capacities of exporting enterprises and would-be exporters to win on the export front. To this effect ZimTrade regularly organises structured capacity building programmes and training in different regions of Zimbabwe.

### Advocacy

ZimTrade works closely with the Ministry of Foreign Affairs and International Trade and other Public Sector Agencies to improve trade regulations and trade policies for the benefit of the exporting community of Zimbabwe.

**Border Timbers Limited**, situated in Manicaland province, has been in the business of growing Eucalyptus and Pine plantations, sawmilling as well as producing Treated gum poles for over 50 years. The company is committed, through the use of a sound environmental policy, to quality and service as well as the future development and growth of Zimbabwe's Timber Industry.

### TREATED GUM POLES

Our poles product range comprises of Roofing, Fencing and transmission poles. All our treated gum poles are first air seasoned for not less than 3 months and pressure treated at moisture level not exceeding 25% with Creosote or CCA, to ensure maximum effectiveness.

### SAWN EUCALYPTUS TIMBER

Sawn eucalyptus is processed from selected saw-logs harvested from plantation grown hardwoods. To ensure stability and best quality, the sawn eucalyptus is kiln dried under a slow, carefully well controlled kilning process to achieve a maximum moisture content of 14%

### SAWN PINE TIMBER

Our product range varies from Roofing Timber, Furniture Grade and Industrial grade suitable for all woodworking applications. Only high quality logs are selected for milling to produce the highest quality sawn timber, kiln dried to the desired moisture level and graded according to Standards Association of Zimbabwe (SAZ) Specifications.

**“We don't just make promises about quality and services, we keep them.”**

# **3 | ZIMBABWE: KEY ECONOMIC SECTORS**

## ARTS & CRAFTS

Zimbabwean arts and crafts have been central and vital in expressing the country's cultural heritage. The creativity and uniqueness of this sector has created a demand through-out the world at the same time creating jobs, especially in rural Zimbabwe.

The Zimbabwean arts and crafts sector comprise of a diverse product range from traditional to modern products such as pottery, basketry, jewellery, paintings, wood carving stone sculptures, textile (batiks) metal and wire arts, amongst others. The vast varieties of arts and crafts and the exceptional skills portrayed in Zimbabwean art have been exhibited worldwide for many years. The arts diversity also comprises of decorative aesthetics applied to many aspects of life, such as, utilitarian objects, objects used in religion and many other spheres.

The global market for arts and crafts in 2018 was valued at US\$28.3 billion with the United States of America, United Kingdom, China, Switzerland and the United Arab Emirates being the top importers. Taking a closer look at Zimbabwe, exports of arts and crafts stood at US\$ 11,374 million. The major markets where South Africa US\$ 6.929 million (61%), United States of America US\$ 1.265 million (11%) and United Kingdom US\$ 870,000 (8%). The arts and crafts sector has a lot of potential which Zimbabwe can tap into and grow the export market share.

# AGRICULTURE

Agriculture is the backbone of Zimbabwe's economy and it provides employment and income for 60-70 percent of the population, supplies 60 percent of the raw materials required by the industrial sector and contributes 40 percent of total export earnings.

Major horticultural products grown for export include mangetout, sugar snaps, macadamia nuts, green beans, citrus, strawberries and cut flowers. Other horticultural products with export potential include blueberries, chillies, avocados, peaches, nectarines and pineapples. The major export destinations for horticultural products are the Netherlands, United Kingdom, Belgium, Ireland, France and South Africa. In cognisance of the importance of agriculture, the Government put in place training programmes and extension services aimed at imparting technical skills as well as good farming practices to the small and medium scale farmers.

Agriculture remains a major driver of growth, and is projected to expand by 5% in 2020, on the back of better expected rainfall and forward planning. Government is also embracing Climate Smart Agriculture (CSA) which harmonises agriculture development with environment protection and reduction in vulnerabilities to climate change. Government is, therefore creating a fiscal buffer to the tune of ZWL\$165 million to cater for drought shocks, as well as strengthening the early warning systems. Other drought proofing measures such as investment in irrigation infrastructure, dam construction and desalination as well as research and extension services, adoption of drought resistant varieties (traditional grains) are expected to be put in place during the 2020 agricultural season.

Main contributors in the sector are tobacco, cotton, sugar cane, oil seeds, maize, coffee, tea and livestock production. Investment opportunities in the sector include contract farming arrangements, financial and technical services provision, infrastructure rehabilitation and development (e.g. irrigation); agro-processing as well as agriculture value chain development. Opportunities for value addition are in the horticulture, tobacco, cotton, sugar, leather and forestry subsectors.

## BANKING

The Reserve Bank of Zimbabwe (RBZ) is the national regulatory institution mandated to license and supervise the banking institutions in the country. The RBZ has put in place measures to strengthen the banking sector and economic fundamentals targeted at creating a conducive business environment.

In order to enhance competitiveness and enhance value for exporters, the RBZ continues to strengthen the inter-bank Foreign Exchange market, where holders of Nostro accounts and other currencies can trade them on a willing-buyer, willing seller basis through banks and bureau de change. The introduction of the interbank foreign currency market was meant to address the foreign currency gridlock arising from widening parallel market activities by harnessing foreign exchange through the formal market. As at September 2019, about US\$ 799 million worth of foreign currency had been traded on the interbank market since its introduction in February 2019.

Currently there are 19 operating banking institutions, comprising 15 commercial banks, one (1) merchant bank and three (3) building societies as well as one (1) savings bank and 156 microfinance institutions.

The 2019 Monetary policy statement also announced the export retention thresholds, which are in line with regional practice, in order to allow exporters to benefit from the inter-bank foreign currency market and to promote uninterrupted supply of forex in the economy. Manufacturing, Horticulture, Transport, Tourism, Tobacco and Cotton merchants shall be allowed to retain 80% of their export receipts. All international remittances and individual funds received from offshore accounts shall continue to be treated as free funds.

Amendments of the Banking Act were approved by Cabinet to strengthen the regulatory environment and the Bill is expected to be gazetted in 2020. In terms of the proposed amendments to the Banking Act, provision will be made for licensing of credit reference bureaus and supervision of the Infrastructure Development Bank of Zimbabwe (IDBZ) and the Small & Medium Enterprises Development Corporation (SEDCO).

## BANKING [CONTINUED]

The banking sector remained adequately capitalized with average tier 1 and capital adequacy ratios of 27.87% and 39.56 % respectively. There was a growth in aggregate core capital of \$7.47 billion as at 31 December 2019, representing a 220.60% increase from \$2.33 billion as at 30 June 2019. The growth in capital was mainly attributed to capitalisation of retained earnings. All banking institutions were compliant with the prescribed minimum capital requirements.

# CONSTRUCTION

There is a French dictum which says: "When the construction industry prospers everything prospers". The construction sector is critical in Zimbabwe as it is the backbone of infrastructure development. According to the Ministry of Finance, the sector is expected to grow by 0.5% in 2020.

The sector has a lot of potential to expand. At its peak in mid 1990s, the construction industry employed more than 50 000 people, but this figure has plummeted to less than 10 000 in 2018. The huge infrastructure deficit in the form of modern roads, public infrastructure, residential houses, dams, schools and hospitals, among others, undeniably requires a thriving construction industry and this presents opportunities for the industry.

Zimbabwe has experienced engineers and architects who are envied across the globe. The country also boasts of quality construction products.

The country's growing population, and hence rapid urbanisation, also requires development of huge and sustainable infrastructure. Government has approved the concept of the New City being constructed on 18 000 hectares of land in Mt Hampden with the New Parliament Building as the catalyst.

The Government has also started a National Housing Delivery Programme which seeks to address the country's housing backlog, estimated to be around 1.3 million. This involves the modernization of old or dilapidated superstructures and the attendant infrastructural services such as sewer and water reticulation.

The private sector is invited to invest in new technologies such as fibre networks, solar, water and sanitation facilities, biogas, as well as building infrastructure through Public Private Partnerships (PPPs).

## INFORMATION & COMMUNICATION TECHNOLOGY

Zimbabwe's Information and Communication Technology sector is well established and has potential for tremendous growth as the country continues to invest in technological advancements. The sector comprises Fixed Telephone; Mobile Telephone; Mobile Money Transfer; online payment systems; Data and Internet as well as postal and courier services.

Zimbabwe has well-developed mobile telecommunications infrastructure, with several public and private players providing a diverse range of products and services. According to the telecommunications sector regulator, POTRAZ, the total number of active mobile subscriptions in Q2 of 2019 was 12,354,315 representing a 1.8% growth from 12,134,455 recorded in Q1 of 2019. The mobile penetration rate increased by 1.5% to reach 84.8% from 83.3% recorded in Q1 2019. The country also recorded an overall growth of 5.3% in active mobile money subscriptions across all operators from 6,679,833 in Q1 2019 to 7,032,330 in Q2. A decline of 0.1% on active fixed telephone lines was recorded, with the decline being amongst corporate subscriptions whereas growth was recorded in residential subscriptions. The decline in corporate fixed telephone subscriptions is attributable to the increasing adoption of Voice over Internet Protocol (VoIP).

The total number of active internet subscriptions declined by 1.1% to record 8,342,051 from 8,431,581 recorded in the previous quarter. The internet penetration rate declined by 0.7% to record 57.2% from 57.9% recorded in the first quarter of 2019. The rate of growth in active fibre subscriptions has declined as compared to previous years where fibre was the fastest growing fixed internet category. Mobile data and internet usage declined by 8.2% to record 9,367 Terabytes in 2019 second quarter from 10,201 Terabytes recorded in the first quarter of 2019. This is the first quarter in one and half years to record a decline in mobile internet and data consumption. Although there was a decline between first and second quarter of 2019, POTRAZ reported an overall increase in mobile data and internet usage from 6,104 Terabytes in the same period in 2018. The decline may be attributable to the upward review of the cost of bundles and packages in the second quarter as well as increases of subscription costs by Internet Service Providers. The growing popularity of social media is expected to continue driving data usage in the coming years.

As the country progresses into year 2020, expectations are that operators will seek to increase their investment mainly in internet and data infrastructure deployment as

## ICT (CONTINUED)

broadband is taking over as the main growth driver for the sector. Mobile money services are expected to continue playing a key role of bridging the financial divide by providing safe, secure and cheap financial services in areas where many Zimbabweans have no access to formal banking systems. Volumes of mobile money payments are expected to maintain an upward trend due to the significant increase in the number of financial services offered on mobile money platforms.

The Government of Zimbabwe through its Ministry of ICT is working on the Smart Zimbabwe 2030 Master Plan that seeks to contribute to the attainment of Vision 2030 by providing for improved ICT Infrastructure in all sectors of the economy and within Government processes.

### ARE YOU

- ✓ An investor seeking opportunities in Zimbabwe, East and Southern Africa?
- ✓ A development organisation seeking to optimise the application of your resources?
- ✓ A development financial institution (DFI) seeking experts to facilitate a good return on your money?

# MANUFACTURING

Zimbabwe's manufacturing sector is vital in the economy as it plays a key role in value addition and beneficiation of the country's primary products (raw materials). The sector comprises of a wide range of products that include clothing and textiles, wood, beverages as well as metal products. The manufacturing sector has strong backward and forward linkages with other sectors of the economy such as agriculture and mining.

Opportunities for value addition exist in different subsectors of manufacturing such as engineering, clothing and textiles, leather and leather products, processed foods and beverages, packaging, building and construction, agricultural inputs and implements, furniture, pharmaceuticals, as well as household goods and electricals.

According to the Confederation of Zimbabwe Industries (CZI) state of the manufacturing sector survey, capacity utilization in the manufacturing sector which was projected to be 34.3%, declined by 11% from 48.2% in 2018 to 36.4% in 2019. The decline in capacity utilization was mainly as a result of shortages of foreign currency, power shortages, low local demand and high production costs.

The 2020 National Budget highlighted several fiscal supportive measures and incentives to support the growth and competitiveness of the manufacturing sector. These measures include suspension of duty on selected raw materials such as milk powder, raw cheese and semi knocked down kits, introduction of rebate of duty on selected raw materials to enhance competitiveness. To ensure that companies are capacitated, the Government has set aside a guarantee scheme for companies to access capital from financial institutions for retooling purposes as well as the implementation of the Zimbabwe National Industrial Development Policy and the Local Content Strategy.

## MINING

Zimbabwe is a country rich with resources spanning over 40 minerals and a highly diversified mineral resource base dominated by the two prominent geological features; the Great Dyke and the Greenstone Belts, popularly known as the Gold Belts. The fame of the Great Dyke can be attributed to the remarkably layered igneous 550km long geological body that contains the world's largest high grade deposits of chrome which is the second largest reserves of a platinum group of metals estimated at 4.4 billion tons. The Greenstone Belts and the Great Dyke are strategic economic resources as they account for significant deposits of gold, chrome and platinum in the world.

The Mining sector in Zimbabwe is projected to generate US\$12 billion annually by 2023 (Mining Report, October 2019). The country has the potential to develop into an internationally recognised mining giant. Zimbabwe has an abundant mineral resource deposit ranging from gold, silver, diamond, nickel, chrome and Platinum Group of Metals (PGMs). The country is home to the world's second-largest known platinum deposits after South Africa, while gold reserves are one of the largest in Africa. It also boasts of having some of the largest chrome and lithium deposits in the world.

According to the 2019 National Budget Statement, the sector contributed US\$3.2 billion to the country's total export receipts in 2019. Zimbabwe's gold production is on a rebound with the Government targeting a 25-tonne output by end of 2019. The gold mining industry is key towards the growth of the economy with the small-scale miners becoming the main source of earnings. However, following the announcement of the new monetary policy in February 2019, gold delivery to Fidelity Printers and Refiners (FPR) extremely declined due to many factors chief among them is the lowering of forex retention percentage from 70% to 55%.

As the sector gears towards Vision 2030, which targets an annual haul of US\$12 billion per annum by 2023, Zimbabwe is targeting a 28% increase in mineral export earnings to US\$4.2 billion in 2020 from US\$3.2 billion in 2019.

Besides direct investment in mining, there is a significant opportunity to provide heavy underground mining machinery and other supplies needed by the mines, as well as related transportation infrastructure and materials, including those related to the railways. The Government's renewed interest in increasing domestic beneficiation in the mining sector may require larger capital investments than for business models that relied on the export of unprocessed or semi-processed natural resources.

## TOURISM

Zimbabwe was named number nine (9) out of ten (10) must-see tourist destinations in the world in 2019 by National Geographic Traveller. It is a prominent tourist destination in Africa and boasts a number of internationally renowned tourist attractions and favourable year-round weather conditions.

Zimbabwe has also been ranked above United Kingdom in terms of the world tourism destination safety, according to the April 2019, UK telegraph report. As a destination, Zimbabwe prides itself with its record of safety and peace, which is one of its selling points.

The remarkable endorsement follows a recent report by Lonely Planet, another leading travel organisation, which listed Zimbabwe as the 3rd destination the world must see in 2020.

Home to the Victoria Falls, Zimbabwe has a diversity of attractions which include four (4) other UNESCO World Heritage sites such as the Great Zimbabwe Ruins, Khami Ruins, Mana Pools, and Matopos. Other attractions include Lake Kariba, Eastern Highlands and over 26 game parks and safari areas strewn across the country.

With tourism seen as a critical pillar in the country's economy and Africa at large, National Geographic says there is an abundance of tourist attractions in Zimbabwe and in its "The Cool List 2019", it gives space to destinations that entail futuristic cityscapes, modern architecture, pristine rain-forests and rehabilitated wildlife.

Zimbabwe is a destination that will delight adrenalin junkies, wilderness lovers, golfers, fisherman, music, arts and culture aficionados, historians, 4x4 drivers, or anyone looking to relax and enjoy the African experience.

## TOURISM (CONTINUED)

The tourism sector has shown resilience over the years, and according to the Zimbabwe Visitor Exit Survey (VES) Report 2018 over 2.4 million tourists visited the country between April and May 2018, over 17 000 of them visiting Victoria Falls and 8 000 using Airline transport.

The Zimbabwean Government declared Victoria Falls a Tourism Special Economic Zone. This is meant to promote investment in tourism infrastructure around the area. Furthermore, the Victoria Falls International Airport was modernized and refurbished to double its annual capacity to 1.5 million passengers, making it a potential travel hub in Southern Africa.

Zimbabwe, in partnership with Zambia, re-launched the Kaza Uni-Visa in December 2016. The Uni-Visa facilitates easy movement of tourists between the two countries and is set to expand with the view of incorporating all SADC nations.

# TRANSPORT

Zimbabwe serves as a gateway to the Southern African Development Community (SADC), the Common Market for Eastern and Southern Africa (COMESA), the East African Community (EAC) and beyond, which earns our country the title of 'land-linked.' Zimbabwe is linked to countries such as Mozambique, South Africa, Botswana, Zambia, Malawi, Tanzania and the Democratic Republic of Congo through the North-South Corridor, which is the most extensive corridor system in the region.

The national road network has an expanse of about 95,000km, and the rail track network is about 2,760km. Four modes of transport are mainly used in this sector, namely: road, rail, aviation and pipeline.

The Government is currently working on major projects for the sector and these include, the widening and rehabilitation of the Plumtree-Harare-Mutare road, which has been completed, the dualisation of the Beitbridge-Harare-Chirundu Road, as well as upgrading of the Beitbridge-Bulawayo-Victoria Falls and Harare-Nyamapanda roads. Other major national programmes and projects in transport include the rehabilitation and maintenance of the existing road network as well as upgrading of the Regional Trunk Road Network (RTRN) to develop Zimbabwe into a regional hub. In aviation, there are plans to upgrade the Harare International Airport as was done at the Victoria Falls International Airport.

# **4 | ABOUT THE ZIMBABWE REVENUE AUTHORITY**

Zimbabwe Revenue Authority (ZIMRA) is a statutory body which derives its mandate from the Revenue Authority Act [Chapter 23:11] and other subsidiary legislation. It is mandated to mobilise revenue and facilitate sustainable compliance with fiscal and customs laws for the economic development of Zimbabwe.

The Authority has a critical role in trade matters as it controls the movement of goods at entry and exit points at all border posts as well as airport arrival and departure points.

ZIMRA is also part of the Ease of Doing Business initiatives currently being spear-headed by the Office of the President and Cabinet. The initiatives are meant to remove all the impediments to trade identified by the private sector.

The Authority mandate is to:-

- Collect revenue.
- Facilitate trade and travel.
- Advise Government on fiscal and economic matters.
- Protect civil society.

## Our Vision

- To be a leader in innovative fiscal services for a competitive business environment

The Authority is a member of World Customs Organisation (WCO), whose mandate is to simplify and harmonise clearance procedures among member states. The body is also responsible for registering companies which qualifies to benefit under different trade agreements that Zimbabwe is signatory to. The registration is done after an assessment of company's compliance to trade agreement rules of origin compliance.

ZIMRA currently use The Asycuda system in managing the process flow. The Asycuda system enables pre-clearance of goods, which entails that importers can clear their goods before arrival at the port of entry as a way of facilitating smooth flow of cargo. This reduces the time that goods will take at the exit or entry point as pre-clearance would have already been done.

# **5 | INVESTMENT OPPORTUNITIES IN ZIMBABWE**

Zimbabwe's investment value proposition offers investors an array of opportunities across the entire economy. There are plenty of investment opportunities in traditional sectors like mining, infrastructure, manufacturing, tourism and agriculture. The priority of Government in these sectors is on value addition and mineral beneficiation.

In addition to these traditional sectors, investors should explore opportunities in consumer facing industries such as Retail, Information Communication Technology (ICT), Banking and Services. These sectors have emerged as the fastest growing in the country.

## WHY INVEST

*in*

# Zimbabwe

Diversified  
economy

Good basic  
infrastructure

Highly skilled  
labour force

Natural resources  
endowment

Macro-economic  
stability

Use of multiple  
currencies

Centrally and strategically located in Southern Africa

## Investment Incentives in Zimbabwe

Zimbabwe offers various incentives, which are mostly in the form of tax incentives and rebates, making the county an ideal investment destination. These include:

- Corporate Tax Exemptions
- Value Added Tax (VAT) Deferment
- Public and Private Partnership Incentives
- Build Own Operate Transfer (BOOT) Incentives
- Customs and Excise Incentives
- Mining and Tourism Sector Incentives
- Incentives Applicable to Special Areas such as Industrial Park Development, Growth Points and Special Economic Zones

## Investment Opportunities by Sector

### Manufacturing

- Textiles (*Cotton ginning, spinning, weaving, knitting, dyeing and printing*)
- Clothing (*Garment manufacturing, trims and accessories*)
- Agro-processing (*Processing e.g. canning, milling, drying*)
- Wood and Furniture (*Saw milling, furniture manufacturing, board and paper milling*)
- Chemicals and Pharmaceuticals (*Manufacturing of household, industrial and agro-chemicals*)
- Metals and Metal Working Industries (*Building and construction, manufacture of metal based furniture, motor vehicles, rail wagons*)

### Energy

- Greenfield thermal projects such as Gokwe North Coal bed methane gas
- Central Transmission corridor project
- Leasing and rehabilitation of small thermal power stations
- Bio-diesel projects
- Hydro power plants
- Generation and use of renewable energy, including installation of solar grid systems and use of biogas

### Mining

- Diamond cutting, polishing and processing
- Platinum refinery
- Processing of gold and diamonds to produce jewellery
- Lithium processing and manufacture of lithium batteries
- Granite processing Infrastructure Development.

### Tourism

- Tourism Services (*operation and management of tourism facilities across Zimbabwe such as provision of transport*)

### Agriculture

- Value addition e.g. meat processing and fruit juice manufacturing
- Production of horticultural products and cut-flowers
- Processing of cotton lint
- Sugar milling (*there is also potential in the by-products of sugar milling e.g. electricity generation, ethanol for blending petrol, molasses for stock feeds*)
- Timber processing
- Processing of tea and coffee
- Agricultural infrastructure rehabilitation and expansion including irrigation facilities

### ICT

- Network Expansion and Capacity Building Programme
- National Cyber Security Programme
- Community Information Centres in urban and rural areas
- Production of software

### Housing & Construction

- Urban housing projects and associated social amenities
- Construction of apartments for middle income earners for rental and/or purchase
- Rural housing programmes
- Rehabilitation and maintenance of all public buildings

## Tobacco Industry & Marketing Board

### SERVICES OFFERED BY TIMB

The functions and powers of the Tobacco Industry & Marketing Board, which are derived from the Tobacco Industry & Marketing Act (Chapter 18:20) are: -

- Administration and control of the tobacco delivery system
- Arbitration and sales supervision at auction floors in order to maintain orderly marketing
- Classification of tobacco from which statistical information is derived and reports published, our website is [www.timb.co.zw](http://www.timb.co.zw)
- Collate statistics relating to the provision, marketing, manufacture and consumption of tobacco;
- Conducting crop assessment surveys to determine crop yield potential and quality composition of the crop in advance of the selling season
- to register tobacco growers
- Granting of exports permit
- Licensing of tobacco buyers, auction floors and commercial graders
- Monitoring and ensuring timeous and efficient shipment of tobacco exports
- Monitoring the control of pests to ensure exportation of tobacco free from pesticide residues
- To provide inputs to growers through our Tobacco Inputs Credit Scheme and
- Advise the Minister of Agriculture on all matters relating to the marketing of tobacco;

### PROCEDURE ON HOW TO REGISTER AS A TOBACCO GROWER

- Completed Application form must be rubber stamped and signed by the grower's local AREG OFFICER to confirm that the grower is a bonafide tobacco farmer Or a separate recommendation letter stamped and signed by the grower's local officer.
- Proof of land availability i.e. permit/land offer letter Or a recommendation letter from the growers local Councilor/Chief if in communal area
- National Identification(original/certified copy)
- Registration fee payable on submission of the form(in terms of Section 26 of the Act). A late registration fee will be charged for registrations done after the deadline date (31 October of every year)

# PUBLIC NOTICE

## CALL FOR 2020 SUPPLIER REGISTRATIONS/RENEWALS

This Notice is a call for Registration for Suppliers to the Public Sector in terms of Section 6 of the Public Procurement and Disposal of Public Assets Act (PPDPA) as read with Section 4 of the Public Procurement and Disposal of Public Assets (PPDPA) Regulations S.I.5 of 2018.

The call is targeted at new suppliers of goods, works and services to the public sector and as well as current suppliers published in the Government Gazettes of 2019 who wish to renew their registrations for 2020.

The Procurement Regulatory Authority of Zimbabwe (PRAZ) is pleased to announce that registrations and renewals for 2020 commence on 2 December 2019. The upcoming on-line supplier registration platform will also be unveiled at this time.

### Invitation

Interested suppliers are invited to view required supporting documentation on [www.praz.gov.zw](http://www.praz.gov.zw)

Please further note that applications should be compliant to all the requirements for Registration. Non-compliant applications will not be considered.

### Registration Processing Fee

All applications and renewals shall be accompanied by proof of payment of non-refundable Registration Processing Fee per category of ZWL 1925-00 or ZWL 1750-00 respectively for new and renewal applications for local Companies and ZWL 13,125 country of registration equivalent for Foreign Companies.

Successful applications shall be published in the Government Gazette quarterly through General Notices in terms of Section 4(3) of the Procurement Regulations and monthly on the PRAZ website [www.praz.gov.zw](http://www.praz.gov.zw)

### First Date of Government Gazette Publication

Please note in order to meet submission requirements for quarterly Gazette, suppliers intending to feature on quarterly gazette publication should ensure they have completed registration procedures 14 (fourteen) days before publication dates as follows:

7 February 2020, 3 April 2020, 24 July 2020 and 23 October 2020

### Mode of payment

The Authority encourages and accepts swipe or alternatively RTGS for local Companies. Foreign companies must deposit funds in the Authority's FCA account. **Local companies are encouraged to swipe on site or alternatively to bring bank proof of payment together with all the required documentation.**

### Bank Details for Local Suppliers:

Account Name:	Procurement Regulatory Authority of Zimbabwe
Bank Name:	Commercial Bank of Zimbabwe (CBZ)
Account Number:	01121064850020
Branch:	Kwame Nkrumah

Please note that all registrations are valid up to the end of each calendar year regardless of when you register during the year.

More details with respect to the process are available in the Registration Application Form at [www.praz.gov.zw](http://www.praz.gov.zw)

Trading hours Monday -Friday from 0800hrs to 1630hrs.
