FOREWORD

It is with great pleasure that I present to you the 2021 Trade Directory of Zimbabwe.

January 2021 marked a significant milestone in the Africa's continental trade integration agenda. The commencement of trade under the African Continental Free Trade Area will go a long way in promoting the movement of goods and services across borders, as well as strengthen the development of regional and continental value chains. We are delighted that this publication will make it easy for business across the African continent to meet and engage with Zimbabwean businesses.

This publication comes at a time when access to reliable information is now more important than ever. The coronavirus pandemic has made it difficult for people to cross borders. In fact, reducing movements has become one of the most important measures to stop the spread of the virus.

As such, virtual engagements have become the most viable alternative to business engagements. This publication therefore presents business interests from Zimbabwe and provides a starting point to further business-to-business engagements.

This Trade Directory is valuable resource to share key information about Zimbabwean businesses to buyers, investors, exporters and other stakeholders. It seeks to increase the visibility of Zimbabwean products in regional and international markets. We are confident that this publication will improve competitiveness by providing up-to-date contact information on Zimbabwean manufacturers, exporters and other trade-related support organisations.

**As ZimTrade, we
remain steadfast in
growing exports
by creating
strong linkages
between local
manufacturers
and global trading
partners.**

FOREWORD

(continued...)

This is in line with the Government of Zimbabwe's thrust to increase export earnings and expectations of the private sector in creating opportunities and strengthening their competitiveness.

To improve on accessibility, this Trade Directory will be available online on the Zimbabwe Trade Information Portal (www.tradezimbabwe.com). This additionally allows for global visibility for our Zimbabwean products and services. I encourage exporters and importers to frequently utilize the Trade Information Portal to access up-to date trade information at the click of a button.

Let me also take this opportunity to introduce you to Shop@Zim, an online platform we launched last year to make it easy for buyers from across the world to connect with Zimbabwean exporters. Shop@Zim is designed to create a

singular window for marketing, selling, and buying Zimbabwean products. I am confident those sourcing products and services from Zimbabwe will find the platform convenient.

Our commitment to disseminating up-to-date and relevant trade information, developing, and promoting potential and existing exporters as well as advocating for the ease of doing export business is fuelled by the passion to ensure that Zimbabwean companies make an efficacious contribution towards the growth of our exports.

I anticipate that this publication will be useful to your business.

ALLAN MAJURU
Chief Executive Officer, ZimTrade
March, 2021

HOW TO USE THE DIRECTORY

The directory is divided into six colour coded sections.

1. USEFUL INFORMATION

This section gives relevant facts and figures on Zimbabwe, followed by a general overview of the Zimbabwean economy and key economic sectors. Contact details of various trade-related institutions and organisations are also provided.

2. USEFUL ADDRESSES

This section provides contact information for various business organisations i.e. Hotels, Banking Institutions, Trade Facilitation Organisations, Selected Government Ministries and Departments, Foreign Representation in Zimbabwe, Zimbabwe Diplomatic Missions Abroad.

3. EXPORT PRODUCT LISTING

Contains an alphabetical list of export product groups. Below each product group are the names of the exporting companies.

4. IMPORT PRODUCT LISTING

Contains an alphabetical list of import product groups. Below each group are the names of importing companies.

5. SERVICES LISTING

This section alphabetically lists services provided (*export and import*). Below each service group are the names of the service providers.

6. COMPANY PROFILES

Lists companies alphabetically. More detailed information is provided (*telephone numbers, fax numbers, e-mail and website addresses as well as product/service descriptions*).

2021 TRADE DIRECTORY OF ZIMBABWE

ABOUT ZIMTRADE

ZimTrade is a unique joint venture partnership between the Private Sector and the Government of Zimbabwe. It was formed through a constitution in September 1991 and started operations in January 1992. ZimTrade is also governed through the constitution which is member-driven. The membership of ZimTrade comprises all exporters and importers of qualifying goods and services as well as anyone who pays membership subscriptions.

ZimTrade was established following recommendations by a high-level symposium on institutional development for export promotion attended by stakeholders from both the public and private sectors. It was hived out of the Export Promotion Division in the then Ministry of Trade and Commerce. This was to facilitate and accelerate export promotion planning and implementation by removing the organisation from the more complex processes of the public sector, thereby enabling quicker reactions and responses to market opportunities and developments. As such, ZimTrade does not require Cabinet Authority when executing its mandate, for example, when travelling on ZimTrade business abroad.

The objectives for which ZimTrade was established are:

- To promote existing Zimbabwe trade
- To develop new exports, by market and product, for Zimbabwe
- To promote export related investment
- To advise Government on matters related to trade and exports
- To do all things conducive to the attainment of the foregoing objectives.

VISION

Towards a sustainable export-oriented economy.

MISSION

To develop and promote export related trade of goods and services for sustainable economic growth.

VALUES

Focused – We always keep our objectives and targets in sight as they are the key drivers to our performance.

Bold – We are confident. We are not afraid to take on challenges.

Connected – We have strong and diverse networks with our clients and stakeholders. This helps us understand their needs and for them to understand our reason for existence.

Trusted – We have earned the confidence of our stakeholders through honesty, authenticity and integrity.

ZimTrade Governance Structure

ZimTrade is governed by a Board comprising 9 members, of whom 4 are elected by the members in a general meeting and 5, including the chairman, are appointed by the Minister of Foreign Affairs and International Trade, in the Government of Zimbabwe. All Board members are appointed in their own rights, and not in a representative capacity. All the members attend an Annual General Meeting at which the organisation's performance is reviewed.

How ZimTrade is Funded

ZimTrade is mainly funded through a Trade Development Surcharge of 0.1% of the free on-board value of qualifying private sector imports and exports (excluding minerals, fuels and power). At the formation of ZimTrade, government originally committed to provide a budgetary subvention (grant) matching dollar for dollar the private sector contribution from the surcharge.

The trade development surcharge was introduced after realisation that trade promotion organisations which are effective have operational autonomy and are well resourced financially, usually through levies on imports and exports, or both.

SERVICES

Market Information

ZimTrade provides market intelligence through various channels such as the trade information portal, inhouse publications that include our trade directory and monthly newsletter and Zimbabwe-EU business Information Centre.

ZimTrade participates in national consultations on regional integration, WTO matters and on bilateral trade agreements aiming to create new opportunities for our exporters and to reduce the hurdles to exporting.

Export Promotion

ZimTrade is committed to promoting Zimbabwe as a reliable and competitive Sourcing and Business Destination for manufactured goods, horticultural products and value-added services. Our promotion activities are carefully designed and implemented to stimulate exports to existing and new markets. We provide assistance to our established exporters as well as to would-be exporters to understand and penetrate developed and emerging markets.

Export Development

ZimTrade undertakes a range of 'Export Development' Initiatives which are directed at building and strengthening the capacities of exporting enterprises and would-be exporters to win on the export front. To this effect ZimTrade regularly organises structured capacity building programmes and training in different regions of Zimbabwe.

Advocacy

ZimTrade works closely with the Ministry of Foreign Affairs and International Trade and other Public Sector Agencies to improve trade regulations and trade policies for the benefit of the exporter's community of Zimbabwe.

- Southern African Development Community (SADC);
- Common Market for Eastern and Southern Africa (COMESA);
- Interim Economic Partnership Agreement (iEPA) with the European Union and
- Economic Partnership Agreement (ESA-UK) with the United Kingdom.

Moreso, Zimbabwe has four (4) operational preferential bilateral trade agreements under which exporters can benefit. These are:

- Zimbabwe and Botswana;
- Zimbabwe and Malawi;
- Zimbabwe and Mozambique;
- Zimbabwe and Namibia.

ZIMBABWE TRADE PERFORMANCE (2011-2020)

Border Timbers Limited, situated in Manicaland province, has been in the business of growing Eucalyptus and Pine plantations, sawmilling as well as producing Treated gum poles for over 50 years. The company is committed, through the use of a sound environmental policy, to quality and service as well as the future development and growth of Zimbabwe's Timber Industry.

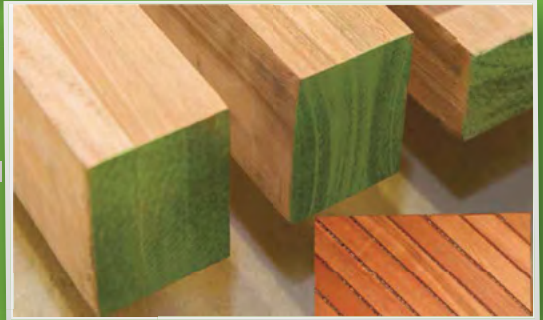

TREATED GUM POLES

Our poles product range comprises of Roofing, Fencing and transmission poles. All our treated gum poles are first air seasoned for not less than 3 months and pressure treated at moisture level not exceeding 25% with Creosote or CCA, to ensure maximum effectiveness.

SAWN EUCALYPTUS TIMBER

Sawn eucalyptus is processed from selected saw-logs harvested from plantation grown hardwoods. To ensure stability and best quality, the sawn eucalyptus is kiln dried under a slow, carefully well controlled kilning process to achieve a maximum moisture content of 14%

SAWN PINE TIMBER

Our product range varies from Roofing Timber, Furniture Grade and Industrial grade suitable for all woodworking applications. Only high quality logs are selected for milling to produce the highest quality sawn timber, kiln dried to the desired moisture level and graded according to Standards Association of Zimbabwe (SAZ) Specifications.

“We don’t just make promises about quality and services, we keep them.”

ARTS & CRAFTS

Zimbabwean art and crafts have been central and vital in expressing the country's cultural heritage.

The Zimbabwean arts and crafts sector comprises of a diverse product range from traditional to modern products such as pottery, basketry, jewellery, paintings, wood carvings, stone sculptures, textiles (batiks), metal and wire arts, amongst others.

The vast varieties of arts and crafts and the exceptional skills portrayed in Zimbabwean art have been exhibited worldwide for many years. The arts diversity also comprises of decorative aesthetics applied to many aspects of life, such as, utilitarian objects, objects used in religion and many other spheres.

The global market for arts and crafts in 2019 stood at USD30.6 billion with the United States, United Kingdom, Hong Kong - China, Switzerland and the United Arab Emirates having the largest share of markets importing arts and crafts. Taking a closer look at Zimbabwe, total exports of arts and crafts stood at USD10.5 million in 2019. The major markets were South Africa - USD6.3 million (63.4%), United States of America - USD1.6 million (15.30%) and United Kingdom - USD724 thousand (6.92%). The arts and craft sector has a lot of potential which Zimbabwe can tap into and grow the export market share.

The creativity and uniqueness of Zimbabwean arts and crafts has created a demand throughout the world, at the same time creating a lot of jobs especially in rural Zimbabwe.

AGRICULTURE

Agriculture remains central not only in driving economic growth but also on powering the industrialisation and value chains strategy. The sector contributed US\$59.5 million to total export earnings in 2020 and 17% to Zimbabwe's GDP.

According to the 2021 National Budget, agricultural output is set to increase to US\$8.2 billion by 2025. In cognisance of the importance of agriculture, the government has put in place programs that focus on the following:

- Access and timely financing arrangements
- Mitigating against climatic change
- Guaranteeing viability and competitiveness of farming business and;
- protecting the environment for sustainability of the sector.

Outside of the traditional horticultural products that are in demand in various export markets such as the Netherlands, United Kingdom, Belgium, Ireland, France and South Africa, there is an emergence of new products with great potential namely blueberries, chillies, avocados, peaches, nectarines and pineapples.

Main contributors in the sector are tobacco, cotton, sugar cane, oil seeds, maize, coffee, tea and livestock production. Investment opportunities in the sector include contract farming arrangements, financial and technical services provision, infrastructure rehabilitation and development (e.g. irrigation); agro-processing as well as agriculture value chain development. Opportunities for value addition are in the horticulture, tobacco, cotton, sugar, leather and forestry subsectors.

BANKING

The banking sector in Zimbabwe is reflected by adequate capitalization, satisfactory asset quality, improved earnings, and liquidity. Stress testing results have showed that the banking sector is largely resilient to various shocks including credit market and liquidity risks.

All banking institutions in Zimbabwe are complied with the minimum core capital requirements. The aggregate core capital for the banking sector increased by 43.78% to US\$10.74 billion as at 31 March 2020 from US\$7.47 billion as at 31 December 2019. The growth in core capital was mainly attributed to capitalization of retained earnings from translation gains and revaluation of properties.

Additionally, total banking sector assets increased by 62.91%, from US\$60.64 billion as at 31 December 2019 to US\$98.79 billion as at 31 March 2020. The growth was mainly attributable to revaluation gains on investment properties, translation gains and other foreign currency denominated assets. More so, total banking sector loans and advances increased by 53.76%, from US\$12.63 billion in December 2019 to US\$19.42 billion during the first quarter of 2020. Meanwhile, asset quality improved marginally, as reflected by a decline in the non-performing loans (NPLs) to total loans ratio, from 1.75% as at 31 December 2019 to 1.42% as at 31 March 2020.

Against this background, the banking sector was adequately capitalized by 31 March 2020, with average tier 1 and capital adequacy ratios of 26.69% and 41.83%, respectively. Overall, this indicated that the banking sector performed satisfactorily during the first quarter of 2020. As at 31 June 2020, there were 19 banking institutions and 235 other companies which were under the supervision of the Reserve Bank.

However, despite the satisfactory performance, COVID-19 gave rise to unprecedented challenges that have affected almost every aspect of modern life. Economic uncertainties and risks to the overall soundness of the banking sector increased during the first quarter of 2020, reflecting partly the impact of the pandemic. Furthermore, the re-introduction of the local currency also did not bring economic relief and improved trade as expected, instead it exacerbated cash shortage. On a brighter side, the introduction of mobile banking eased the cash crisis to a certain extent. However, due to illegal Money Transmission, Mobile Banking and Mobile Money Interoperability the issue was reversed by the Reserve Bank of Zimbabwe through SI 80 of 2020.

Notwithstanding the increasing economic uncertainty due to the impact of the COVID-19 pandemic, there was growth in banking sector assets mainly attributable to translation of foreign currency denominated loans & balances with foreign institutions. All banking institutions were profitable during the year 2020, aggregated banking sector profits for the period ended 30 September 2020 amounted to US\$23.37 billion representing an increase from US\$13.46 billion as at 30 June 2020.

Home to Zimbabwe's most Loved Brands.

CONSTRUCTION

The construction sector in Zimbabwe is critical as it is the backbone of infrastructure development. According to the Ministry of Finance, the sector is expected to grow by 7.2% in 2021, despite suffering a major contraction in 2020 where the sector's growth declined by 11.4%.

The sector has a lot of potential to expand with many opportunities to rehabilitate public infrastructure such as schools, dams, poor road networks, hospitals and residential, among many other areas. The government has earmarked several projects which present numerous opportunities within the sector.

Some of the projects, as announced by the Minister of Finance in the 2021 National Budget include:

- Road Works such as the Beitbridge-Harare-Chirundu dualization, Karoi-Binga, Mutare-Harare-Bulawayo dualization, rural roads rehabilitation, among others.
- Dam Construction Projects (Kunzvi, Causeway, Chivhu, Bindura dams, etc.).
- Construction of new schools.
- Construction of magistrates and labour courts.
- Construction of New Parliament Building.
- Expansion of the Robert Gabriel Mugabe International Airport as well as the Beitbridge Border Post.

The Government of Zimbabwe continues to pursue housing development as one of the basic human need for reducing poverty in the country. In the 2021 National Budget, government dedicated to support the Ministry of National Housing and Social Amenities to the tune of ZWL\$2.8 billion, to be complemented by other private sector initiatives. Government also committed ZWL\$10 billion for public works covering institutional and other housing development interventions.

Zimbabwe has experienced engineers and architects who are envied across the globe. The country also boasts of quality construction products. The private sector and investors alike are invited to take a keen interest in the developments taking place in the construction industry in Zimbabwe. Other support service providers are also invited to consider developing new technologies and making investments in fibre networks, solar, water and sanitation facilities, biogas, as well as building infrastructure through Public Private Partnerships (PPPs).

KUZOLUNGA

INFORMATION & COMMUNICATION TECHNOLOGY

Zimbabwe has a well-established Information and Communication Technology sector with potential for tremendous growth as investment continues in technological advancements.

The sector comprises Fixed Telephone; Mobile Telephone; Mobile Money Transfer; Online Payment Systems; Data and Internet as well as postal and courier services.

The mobile telecommunications infrastructure in Zimbabwe is well-developed, with several public and private players providing a diverse range of products and services. According to the telecommunications sector regulator, POTRAZ, the total number of active mobile subscriptions in Q2 of 2020 was 12,798,298, a decline of 6.7% from 13,724,522 recorded in Q1 of the same year. This resulted in a mobile penetration rate of 87.8% down from 94.2% in Q1. The decline in active mobile subscriptions may be attributable to the depressed demand in the economy, at both household and industry level due to the impact of the Covid-19 pandemic. Overall, however, Zimbabwe has in the past ten years experienced significant progress in access to mobile services from 50.4% in 2010 to the current levels of 87.8% in Q2 of 2020.

A decline of 0.2% on active fixed telephone lines was recorded in 2020, from 260,959 in Q1 to 260,542 in Q2, with the decline being attributable to the drop in residential subscriptions. Unlike in 2019, an increase in corporate subscriptions was recorded in Q2 as most companies sought to have ADSL installed. Overall, there is a constant drop in fixed telephone subscriptions over the past few years as the service provider continues to face competition from mobile networks and VoIP, amongst other emerging technologies.

Active internet and data subscriptions also declined by 4% to record 8,267,268 in Q2 from 8,614,009 in Q1 of 2020. As a result, the internet penetration rate declined by 2.4% to reach 56.7% from 59.1%. In 2010, the internet penetration rate stood at just 11%, hence so much progress has been made in providing access to the internet to Zimbabwean citizens. On the other hand, mobile internet and data traffic, in the same period, increased by 56.2% to record 10,407 terrabytes from 6,661 terrabytes. Used International Internet Bandwidth Capacity also increased by 2.8% to record 128,173 Mbps from 124,627 Mbps. According to the country's telecommunications regulator, POTRAZ, the growth in mobile internet and data usage was a result of increased

telecommuting by the work force due to the Covid-19 restrictions. The general populace's interest in global Covid19 news and updates could also have contributed to the growth in mobile internet and data consumption.

As the country progresses into 2021, expectations are that operators will continue to invest in ICT infrastructure such as the establishment of more base stations especially in the rural areas, which only account for 29.8% of the total 8,900 base stations in Zimbabwe. Mobile money services are expected to continue playing a key role of bridging the financial divide by providing safe, secure, and cheap financial services in areas where many Zimbabweans have no access to formal banking systems. Volumes of mobile money payments are expected to maintain an upward trend due to the significant increase in the number of financial services offered on mobile money platforms.

The Government through the Ministry of ICT and key stakeholders continues to push for increased participation of Zimbabwe in the digital space with various projects being launched such as the e-commerce platforms; Zimbabwe Mall online, Shop@zim, and Innovation Drive (aimed at youth startups). The Cyber security and Data Protection Bill enacted in 2020 seeks to promote a safe virtual environment for all Zimbabweans and instill confidence in investors. All these efforts will undoubtedly contribute towards the attainment of Vision 2030 by providing for improved ICT Infrastructure in all sectors of the economy and within Government processes.

Everyday Insurance Made Easy

MANUFACTURING

Zimbabwe's manufacturing sector contribution to the Gross Domestic Product is projected to grow from a negative 9.6% in 2020 to 6.5% in 2021. The sector is vital in the economy as it plays a key role in value addition and beneficiation of the country's primary products (raw materials).

The manufacturing sector comprises of a wide range of products that include food and beverages, chemicals, clothing and textiles, wood and wood products as well as leather products among others. The sector has strong backward and forward linkages with other sectors of the economy. Agriculture and mining for instance, provide raw materials which are processed into finished and semi-finished products such as edible oils, stock feeds, canned beef, sugar, iron and steel, window and door frames etc

In the 2021 National Budget, the Minister of Finance and Economic Development committed to assisting the sector to recapitalise and increase its capacity utilisation by improving the availability of foreign currency from the foreign exchange auction system as well as increasing the access to affordable financing.

The Government, in consultation with private sector players, has come up with the National Development Strategy (NDS1) which seeks to strengthen value chain development within the agro-processing and mineral beneficiation sectors of the economy. This will be achieved by investing in the following areas; farm mechanisation, provision of affordable financing models, capacity building for infant industries and promotion of value-chain development among other initiatives.

MINING

Zimbabwe mining sector is highly diversified, with close to 40 different minerals. The sector accounts for about 12% of the country's gross domestic product (GDP) and the government aims to realise the sector's potential to generate US\$12 billion annually by 2023.

The government expected the sector to drive economic growth in 2020, but the onset of the COVID-19 pandemic dampened such optimism. The predominant minerals include gold, platinum, chrome, coal and diamonds. The government has stated that it intends to amend the Mines and Minerals Act to make it more progressive and investor friendly to attract more investment. Companies are required to export all minerals through the state-owned Minerals Marketing Corporation of Zimbabwe (MMCZ), except for gold which must be sold to the Reserve Bank of Zimbabwe (RBZ). However, individual companies may receive permission from the government of Zimbabwe to sell minerals directly.

According to the 6th state of the Mining Industry Report, the combination of economic turmoil and a deteriorating domestic Covid-19 outbreak kept a lid on mine production growth rates in 2020. The longer-term outlook is however more positive due to major projects in the pipeline including the Great Dyke Investment with platinum having a particularly positive growth outlook.

Regardless of the extractive sector's COVID-19 imposed challenges which weighed heavily on commodity prices caused by global shutdowns, and contrary to expectations, the mining business confidence index for 2021, which measures business sentiments (optimism vs pessimism) from mining executives, stands at +3.1 from 2.2 in 2020. About 90% of miners plan to ramp up production in 2021 with 10% expecting production levels not to change.

Regardless of the prevailing capital constraints, gold output is expected to grow 73.6% to 33000kg up from 19050kg in 2020. Platinum will slightly increase by 3% to 15000kgs.

Coal output is tipped to grow by 25% from 2020 levels of 2.4 million metric tonnes to 3 million metric tonnes. The diamond sector is projecting an output increase of 19% from 2.1 to 2.5 million carats. The mining sector capacity utilisation is expected to grow to 80% in 2021 from 61% in 2020. The growth is anchored on the expectation that the country will manage the COVID19 pandemic better and that there will be favourable government interventions. Zimbabwe's mining industry contributed half of the US\$4,8 billion export revenues generated during the third quarter ended September 30, 2020 (RBZ). Mining industry export receipts rose by 14% to US\$2.4 billion during the period.

As the sector gears towards Vision 2030, which targets an annual haul of US\$12 billion per annum by 2023, the Zimbabwean government has planned expansion programmes aimed at increasing production by miners as well as capacity utilisation from the current 61% to about 80% in 2021 through expected improvement in power supply and foreign currency availability coupled with favourable international commodity prices. Progressively, the 2021 budget allocated resources to the tune of ZWL\$247.4 million to meet the target upon which migration should be completed from existing manual to computer based cadastral system. The migration to a computerised mining cadastre system will not only minimise mining claim disputes but it will also foster revenue collection and accountability which is critical in the attainment of the US\$ 12 billion economy alluded to in the country's development goals by government. Growth in 2021 will be anchored by agriculture and mining, which is forecasted to grow by 11.3% and 11% respectively.

TOURISM

Zimbabwe is a landlocked country located on a high plateau in the southern part of the African continent, between the Zambezi and Limpopo rivers and covering 390 245 km². The country borders South Africa to the South, Botswana to the West, Zambia to the North, Mozambique to the East.

Zimbabwe has also been ranked above United Kingdom in terms of the world tourism destination safety, according to the April 2019, UK telegraph report. As a destination, Zimbabwe prides itself with its record of safety and peace, which is one of its selling points.

The tourism sector plays a crucial role in the attainment of the country's Vision 2030 as it is one of the four pillars underpinning the growth of the Zimbabwean economy alongside agriculture, mining, and manufacturing.

The country has been on an infrastructure development drive which has seen the expansion and refurbishment of airports. The Victoria Falls International Airport was recently completed to double its annual capacity to 1.5 million passengers, making the Victoria Falls a potential travel hub in Southern Africa. Expansion of the Robert Mugabe International Airport (formerly the Harare International Airport) has begun and plans are underway for expansion of other airports within the country. This will ease access to and within Zimbabwe.

Zimbabwe is well known for its 7 wonders which are:
 A Wonderful People and Culture;
 Rich History and Heritage;
 The Majestic Victoria Falls – Mosi-oa-Tunya;
 The Great Zimbabwe – The Grand Medieval Palace;
 Pristine Wildlife and Nature;
 The Mystique of the Eastern Highlands;
 The Mighty Zambezi and the Mythical Kariba.

In recent years, the government supported capital investment in the tourism sector by providing tax incentives and duty-free status on imports for certain categories of

capital goods for hotels, restaurants and safari operators. Relatively low real estate prices in Victoria Falls offer opportunities in the construction of hotels and lodges. Furthermore, the designation of the Victoria Falls as a Tourism Special Economic Zone and International Financial Centre should assist the town to attract much needed investments.

According to the Zimbabwe Tourism Authority, the country's tourism sector, as many other industries, is slowly staggering to a new-normal after months of uncertainty due to the outbreak of the Covid-19 pandemic. The international and domestic travel ban has significantly affected the sector, destabilising a forecasted 30% growth in domestic tourism by December 2020. However, the recovery of the sector, a key foreign currency earner has been gaining momentum with various tourism players re-opening facilities while strictly adhering to the Covid-19 Health Protocols.

THE TRUSTED BRAND

SINCE 1946

TRANSPORT

Zimbabwe road network plays a major role in the movement of the country's exports and imports as well as transit freight. Approximately 14% of the network is classified as secondary roads that link the main economic centres within the country, enabling internal movement of goods and services. The primary and secondary roads are collectively referred to as the trunk road system. A little more than 70% of the network is made up of tertiary feeder and access roads that link rural areas to the secondary road network.

The country has three International airports, Robert Mugabe International Airport in Harare, Joshua Mqabuko Nkomo in Bulawayo, and Victoria Falls Airport. There are also domestic airports and airstrips that require further development such as Masvingo, Hwange, Mushumbi Pools, Bumi Hills, Buffalo Range, Kariba, Gweru and Mutare.

Zimbabwe is a signatory of the SADC Protocol on Transport, Communications and Meteorology and when the protocol was adopted, it set out significant changes to the road sector management and financing within the region.

National and regional transport connectivity is necessary for promoting economic activities and cross border trade and the Government of Zimbabwe is working on the rehabilitation and tolling of one of the country's major highways and regional trunk roads, the Beitbridge-Harare-Chirundu road.

The Zimbabwe's Customs and Excise Act has provisions that allow transit cargo to pass through the country. It is a liberalised framework that does not discriminate against the source of the cargo and foreign trucks can pick cargo in Zimbabwe. When cargo is in transit, clearing agents lodge duty guarantees with the Zimbabwe Revenue Authority to ensure that the cargo remains transitory traffic and that it is not sold in the domestic market. Apart from meeting the road user charges, no levies are charged on transit cargo, thus making the system much more open and liberal.

In addition to a robust road network, there is need for a reliable rail network to offer the much-needed support to economic activities and to provide efficient transportation for bulk commodities. The rail network is a crucial element for economic recovery and development as it connects all major economic centres, providing transport for raw materials, finished goods and passengers. For this reason, the Ministry of Transport and Infrastructural Development in conjunction with the National Railways of Zimbabwe is working on best strategies to recapitalise and revive the country's rail sector.

Kutsaga Research– Maximizing Economic Value

2021 TRADE DIRECTORY OF ZIMBABWE

THE ZIMBABWE REVENUE AUTHORITY

Zimbabwe Revenue Authority (ZIMRA) is a statutory body which derives its mandate from the Revenue Authority Act [Chapter 23:11] and other subsidiary legislation.

It is mandated to mobilise revenue and facilitate sustainable compliance with fiscal and customs laws for the economic development of Zimbabwe. In 2020 revenue collections amounted to ZWL182.5 billion, which was 6.2% above the target of ZWL171.9 billion. The major contributors to the tax revenues were companies with ZWL34.1 billion, followed by VAT at ZWL33.5 billion while individual income tax contributions ZWL28.4 billion. Excise duties brought in ZWL25.8 billion and customs duties ZWL14.5 billion.

As the country is implementing the National Development Strategy (NDS1) under the theme "Towards a Prosperous & Empowered Upper Middle-Income Society by 2030" ZIMRA is mandated to strengthen its revenue collection effort through reviewing and streamlining tax incentives, formalising the informal sector, upgrading of the audit and tax services of large taxpayers.

The year 2020 was characterized by Covid-19 pandemic and as the pandemic persists in 2021 ZIMRA has exerted more effort towards the simplification of processes and procedures at both inland stations and ports of entry and exit.

The Authority encourages the use of electronic platforms for the convenience of both the taxpayers and ZIMRA staff during this pandemic period. ZIMRA introduced additional tax payment relationships with mobile money platforms for payment convenience.

The Customs automation program is being fast-tracked to eliminate paper processes and interface between staff and clearing agents as well as other stakeholders. Long-term solutions to alleviate the border posts congestion in the form of dry ports are advancing.

2021 TRADE DIRECTORY OF ZIMBABWE

INVESTMENT OPPORTUNITIES IN ZIMBABWE

Zimbabwe’s investment value proposition offers investors an array of opportunities across the entire economy. There are plenty of investment opportunities in traditional sectors like mining, infrastructure, manufacturing, tourism and agriculture. The priority of Government in these sectors is on value addition and mineral beneficiation.

In addition to these traditional sectors, investors should explore opportunities in consumer facing industries such as Retail, Information Communication Technology (ICT), Banking, Energy and Services. These sectors have emerged as the fastest growing in the country.

WHY INVEST

in

ZIMBABWE

Strong human capital base	Dividends are freely remittable	Natural resources endowment
Pro-market policies	Existence of various BIPPAs	Diversified economy
Sound basic infrastructure	Macro-economic stability	Centrally and strategically located in Southern Africa

Investment Incentives in Zimbabwe

Zimbabwe offers various incentives, which are mostly in the form of tax incentives and rebates, making the country an ideal investment destination.

- Public and Private Partnership Incentives
- Build Own Operate Transfer (BOOT) Incentives
- Customs and Excise Incentives
- Mining and Tourism Sector Incentives
- Incentives Applicable to Special Areas such as Industrial Park Development, Growth Points and Special Economic Zones
- Value Added Tax (VAT) Deferment
- Corporate Tax Exemptions
- Value Added Tax rate reduced to 14.5% effective 2020
- Amendment to Collective Investment Schemes which will pave way for investments in:
 - real estate investments trust schemes.
 - property fund.
 - commodity fund.
 - exchange traded funds.
 - private equity fund; and
- The development of Zimbabwe Investment and Development Agency
- General Corporate Income Tax Rate reduced to 24% effective 2020
- The review of the royalty on diamond from 15% to 10% of gross revenue.

Investment Opportunities by Sector

Manufacturing

- Agro-processing (Processing e.g. canning, milling, drying)
- Textiles (Cotton ginning, spinning, weaving, knitting, dyeing and printing)
- Clothing (Garment manufacturing, trims and accessories)
- Wood and Furniture (Saw milling, furniture manufacturing, board and paper milling)
- Chemicals and Pharmaceuticals (Manufacturing of household, industrial and agro-chemicals)
- Metals and Metal Working Industries (Building and construction, manufacture of metal-based furniture, motor vehicles, rail wagons)
- Leather and Footwear
- Tobacco processing
- Finishing textures and knitting products for clothing
- Consumer electronics and communication equipment

Energy

- Greenfield thermal projects such as Gokwe North Coal bed methane gas
- Central Transmission corridor project
- Leasing and rehabilitation of small thermal power stations
- Bio Diesel projects
- Hydro power plants
- Generation and use of renewable energy, including construction of solar power fields, then installation of solar grid systems and use of biogas
- Extension of power stations in Kariba and Hwange.

Tourism

- *Tourism Services (operation and management of tourism facilities across Zimbabwe such as hotel and conferencing, restaurants, provision of shuttle services, etc.)*
- *Building accommodation in places like Kariba, Hwange National Park, Matopo Hills, Victoria Falls*

Agriculture

- Value addition e.g. meat processing and fruit juice manufacturing
- Production of horticultural products and cut flowers
- Processing of cotton lint
- Sugar milling (there is also potential in the by-products of sugar milling e.g. electricity generation, ethanol for blending petrol, molasses for stock feeds)
- Timber processing
- Processing of tea and coffee
- Agricultural infrastructure rehabilitation and expansion including irrigation facilities
- Milling - Limited domestic milling capacity in wheat
- Recapitalization of oilseed processing industry
- International market for medical and cosmetic cotton wool products.
- High value leather products - International demand for high value crocodile and ostrich leather products.
- Organic and fair-trade meat.
- Domestic supply falling short.
- Canning of beef for domestic market.
- Demand for processing machinery and equipment
- Grain – local demand exceeding local production.

Investment Opportunities by Sector

Mining

- Large reserve of platinum and diamond
- Diamond cutting, polishing, and processing
- Platinum refinery
- Gold and Diamond processing
- Jewellery manufacturing
- Lithium processing and manufacture of lithium batteries
- Granite processing Infrastructure Development.

Transport

- Zimbabwe's location in the SADC makes it the centre in the region which allows the country to provide getaways to other countries.
- Regional Corridor Development and Management
- Establishment of Dry Ports
- Transforming prioritized Border Posts into One Stop Border Posts to address the hard and soft infrastructure challenges experienced at commercial border posts along strategic regional corridors.
- Building bridges, recovering, and maintaining old roads, such as Beitbridge – Harare - Chirundu
- Introducing new technologies and efficient management
- Construction of new rail links - Lions Den to Kafue (Zambia) and Shamva to Moatize (Mozambique) rail links
- Electronic goods and passenger trains

ICT

- Network Expansion and Capacity Building Programme
- National Cyber Security Programme
- Community Information Centres in urban and rural areas
- Production of software and applications
- Investment in various innovation hubs declared in the country
- In Zimbabwe private broadcasting is just starting to be introduced
- Provision of media services, supply of digitalization equipment and telecommunications and postal services.

Infrastructure, Housing & Construction

- Urban housing projects and associated social amenities
- Construction of low to medium income housing projects
- Rural housing, road and electrification programmes
- Rehabilitation and maintenance of all public buildings
- Introduction of the 2030 Infrastructure Investment Plan (Ten-year road map)

Mobile Banking & Payments

- Integrating mobile banking solutions into agriculture, retail, transport, health, mining etc.
- Mobile banking solution has seen over 4 billion USD worth of transactions since its inception in 2011.
