**Trade**

Nestled between the tropics, Zimbabwe's sunny and warm climate combined with its fertile soils, gives our produce a unique and rich natural flavour.

Our non-gmo policy means our produce is close to what nature intended. Over the years, Zimbabwean produce has found its way onto the dining tables of Europe, Middle East, Southeast Asia and other key international markets.

## Blueberry

Our blueberries are high in antioxidants and rich in Vitamin C which helps in reducing cell damage, ageing as well as high blood pressure, while making the digestive system efficient. Our blueberries are juicy and will surely tickle your taste buds.

## Avocado

Our Hass avocados contains mono-saturated fats and potassium that protects against heart diseases, low blood pressure, strokes and kidney failure. They improve antioxidant absorption which is good for your eyes and vision.

## Macadamia Nuts

Enjoy the crunchy, rich buttery flavor of Zimbabwean grown macadamia nuts. Our macadamia nuts can be consumed raw, soaked or roasted. They can be value-added into other high value products such as chocolate, butter and other confectionery products. They contain antioxidants and other dietary fibers that reduce cardiovascular disease, diabetes and other digestive conditions.

## Citrus Fruits

We are major supplier of citrus fruits, with our oranges that are high in Vitamin C and low in calories. Not only do our lemons have a tangy taste but they help in weight loss, reduce heart disease as well as kidney failure.

## Passion Fruit

We offer the exotic purple skinned passion fruit which offers a wide range of nutritional benefits. Our passion fruit can be value-added into pulp, juices, jams and nectar.

## Peas

Zimbabwe is one of the top producers of Mange tout and Sugar snap peas. Peas are one of our traditional crops and the country has been a producer for more than 2 decades.

## Other Products

Stone Fruits; Fine Beans; Fresh Chillies; Sweet Corn; Tender Stem Broccoli & Baby Carrots.
